

CE Above The Floor Tools™

Customized solutions for above the floor surface and equipment cleaning

Customized tools for special surfaces

The easiest and most effective way to clean pipes, soft wall curtains, tanks and other hard to reach areas in Controlled Environments.

Vileda Professional®, the leader in floor cleaning systems within Controlled Environments is proud to introduce a new line of speciality above-the-floor tools. These innovative tools are ideal for surfaces that are difficult to reach, clean and disinfect.

Unbeatable performance

Our CE Above The Floor Tools™ use a unique controlled environment microfiber material that is an extension of Vileda Professional®'s current CE floor cleaning system. They are compatible with ISO 4-9/GMP A,B,C, D.

Efficient

- High performance Polyester-Microfiber disposable sleeves and covers for an excellent cleaning result
- High surface coverage for uneven surfaces and non- flat surfaces like pipes, tanks, hoods and soft walls

Easy and Ergonomic To Use

- Innovative tool design allows full range of motion during cleaning and disinfecting
- Ideal for hard-to-reach areas above the floors
- Adjustable handle to reach different heights without any extra effort

Contamination Control

- Independently demonstrated bacteria reduction of 99.99%
- Low particle shedding on covers and sleeves
- All tools and sleeves are designed for controlled environments and are autocavable

Usage

- Above the floor areas of ISO 4-9/GMP A, B, C, D

CE Softwall Cleaner™

CE Tank Cleaner™

CE MultiSurface Cleaner™

MicroIntensive™ L Sleeve and Cover

CE MultiSurface Cleaner™

The CE MultiSurface Cleaner™ tool is manufactured of high performance polymers and all metal parts are stainless steel making this completely autoclavable and corrosion resistant. Designed to clean pipes, hoods and other hard to reach and uneven surfaces with minimal effort and maximum efficiency. Very versatile and easily bendable to give the tool different shapes to effectively clean any surface.

CE Softwall Cleaner™

CE Softwall Cleaner™ is designed to clean soft wall curtains and separation zones in cleanrooms and controlled environments. Manufactured of electro-polished stainless steel and anodized aluminium with an adjustable telescopic handle that reaches to 9' (2.74m). Robust construction and innovative design means higher pressure can be applied during cleaning and easily adjusted as needed.

CE Tank Cleaner™

Electro-polished stainless steel frame is pre-bent to 9" (23cm) radius and is easily adjustable to fit inner or outer tank walls. The CE Tank Cleaner™ moves in 3 dimensions to ensure good contact with the surface being cleaned and is ideal for cleaning tanks within cleanrooms. The unit is easy to use for tight spaces or can be used with the telescopic handle for hard to reach areas.

MicroIntensive™ L Sleeve and Cover

Single - use, double - sided sleeves and covers are constructed of the same material as the MicroIntensive™ L Mop of the CE UltraSpeed Pro™ Bucket System. Both are pre-laundered and single bagged. MicroIntensive™ L Sleeve fits the CE MultiSurface Cleaner™ while the MicroIntensive™ L Cover will fit the CE Softwall Cleaner™ and the CE Tank Cleaner™.
